

Wheelchair Basketball

Wheelchair Basketball is based on the sport of basketball, with minor adaptations to the rules to reflect the use of wheelchairs. It is played on standard basketball courts with standard height rings and backboards.

The game was originally designed as a rehabilitation and recreation activity for people with a spinal cord injury. It is now enjoyed by people of all abilities.

Sporting Wheelies and Disabled Association welcomes anyone to come along and try wheelchair basketball. We offer two free trial sessions for anyone who has not previously attended a wheelchair basketball program.
